

Meet our new Claims Consultant, Jamico Daniels!

Arriving February 19, 2020, Jamico is the first new hire of the decade to the Trust and Unemployment Pool.

Jamico comes to us with experience in both workers' compensation and auto claims. Most recently he was with Sedgwick, handling Workers' Comp claims for employers such as the Bellevue School District, Macy's, and Century Link.

In addition to an aim to exceed expectations, build rapport with people, and learn new things, Jamico brings artistic talent to our team. He is a media artist (drawing, digital painting, 3D modeling, and animation) and Anime enthusiast with musical tastes ranging from Dean to Periphery!

We're excited by how Jamico will add to our team's customer service focus and know you will enjoy getting to know him as well.
