

SOUND ADVICE

Employee Safety & Health Handbook Now Available in Non-English

The Puget Sound Workers' Compensation Trust is pleased to announce the availability of the Employee Safety & Health Handbook in non-English languages. We recently conducted a district survey of the non-English languages your employees use to help us understand how your employees can improve their understanding of the information they are receiving related to safety policies and procedures.

To better serve our diverse member districts, we are introducing versions of the [Employee Safety & Health Handbook](#) in the following languages:

- Spanish
- Chinese Languages (Cantonese, Mandarin)
- Vietnamese
- Russian
- Tagalog
- Korean

If you do not see the language in which you would like to have translated content, please contact us with your specific translation needs.
